

**MUTUAL ACCEPTANCE OF BASIC SAFETY AND  
EMERGENCY PREPAREDNESS TRAINING  
MEMORANDUM OF AGREEMENT  
BETWEEN  
NOGEPA, NSOC-D, OLF, Oil & Gas UK**

**November 1, 2007**

It is agreed that NOGEPA, NSOC-D, OLF and Oil and Gas UK will continue to recognise safety training given in each of the countries and in accordance with the attached matrix.

Each association accepts training schools and courses approved by the other National Association.

This agreement is primarily for personnel working cross border in the North West Europe.

The ultimate goal for the associations is to develop a common standard to prepare the workforce to achieve a high level of competence in basic safety and emergency preparedness across North West Europe.

The safety-training certificate must be valid in the country of issue and also within the time period of the accepting country.

Each National Association is the responsible for informing member companies, heliports, major contracting and supply industry and training schools, within their own country, of this agreement.

Future corrections of basic safety and emergency preparedness training standards referred to in this agreement shall be recognised by the organisations covered by this agreement

Signed and approved by:
